Setting UI Language

Each Spotlight User can determine the display language of the Spotlight User Interface, from the available languages.

To do so:

- Select “**Options**”. The “**User Options**” window will open

OVERVIEW **CONFIGURATION** **REPORTING** **SECURITY AUDIT** **OPTIONS** **ADMIN**

- Select a language from the “**Language**” dropdown
- Select “**Save**”

The screenshot shows a 'User Options' dialog box with the following fields and buttons:

- Options for Environment:** A dropdown menu currently showing 'PROD'.
- Email Address:** A text input field.
- Language:** A dropdown menu with 'English' selected. This dropdown is highlighted with a red border.
- Buttons:** 'Save' and 'Close' buttons at the bottom. The 'Save' button is highlighted with a red border.

- Refresh the browser window

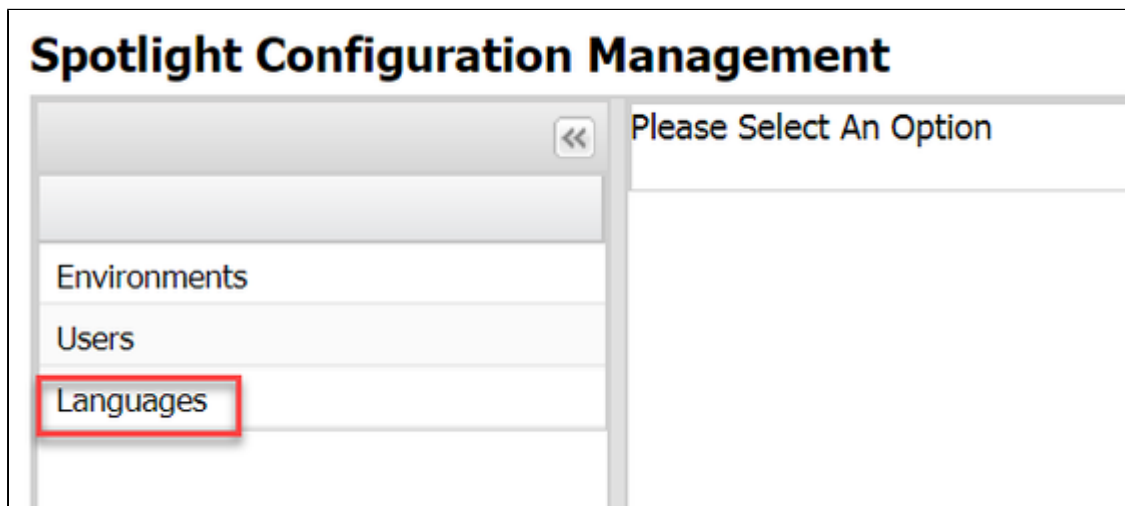

Localisation Admin

Adjustments to Spotlight Language files can only be performed by Spotlight Administrators. To access the language tools:

- Select “Admin”

OVERVIEW CONFIGURATION REPORTING SECURITY AUDIT OPTIONS ADMIN

- Select “Languages”

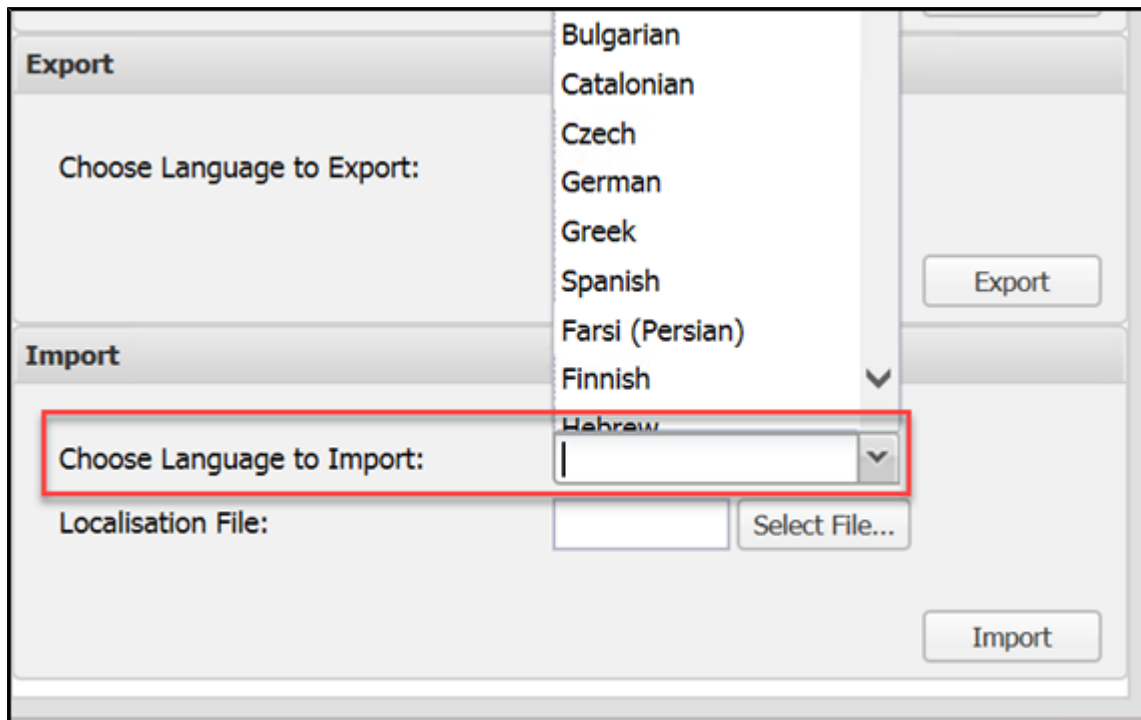

- The Localisation Admin window will open

The screenshot shows the 'Localisation Admin' window. On the left is a list of 'Localisation Keys' including 'Key', 'Add', 'AddAgain', 'AddApplicationConnectionPrompt', 'AddAttachment', 'AddDataImportFileUpload', 'AddedDate', 'AddFileDeployFileUpload', 'AddingItemPleaseWaitMsg', 'AddingItemsPleaseWait', 'AddingMsg', 'AddingMultipleItemsToConfigPackag', 'AddLink', 'AddNotes', 'AddProbe', 'Address', 'AddSelectedtoConfigPackage', 'AddThisVersionToCompare', 'AddThisVersionToConfigPackage', and 'AddToCompare'. The main area has three sections: 'Edit' with 'Available Languages' and 'Value' fields and a 'Save' button; 'Export' with 'Choose Language to Export' (set to 'French') and an 'Export' button; and 'Import' with 'Choose Language to Import' and 'Localisation File' (with a 'Select File...' button) and an 'Import' button. A 'Close' button is at the bottom.

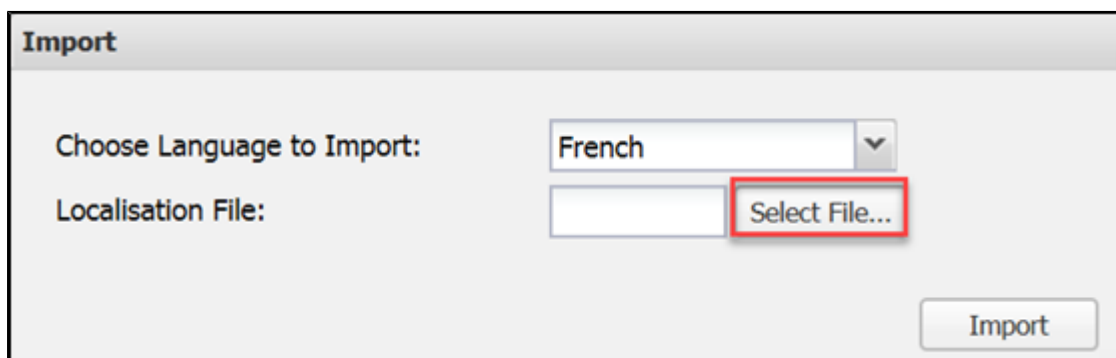

ImportLanguage Files

To import a new language file:

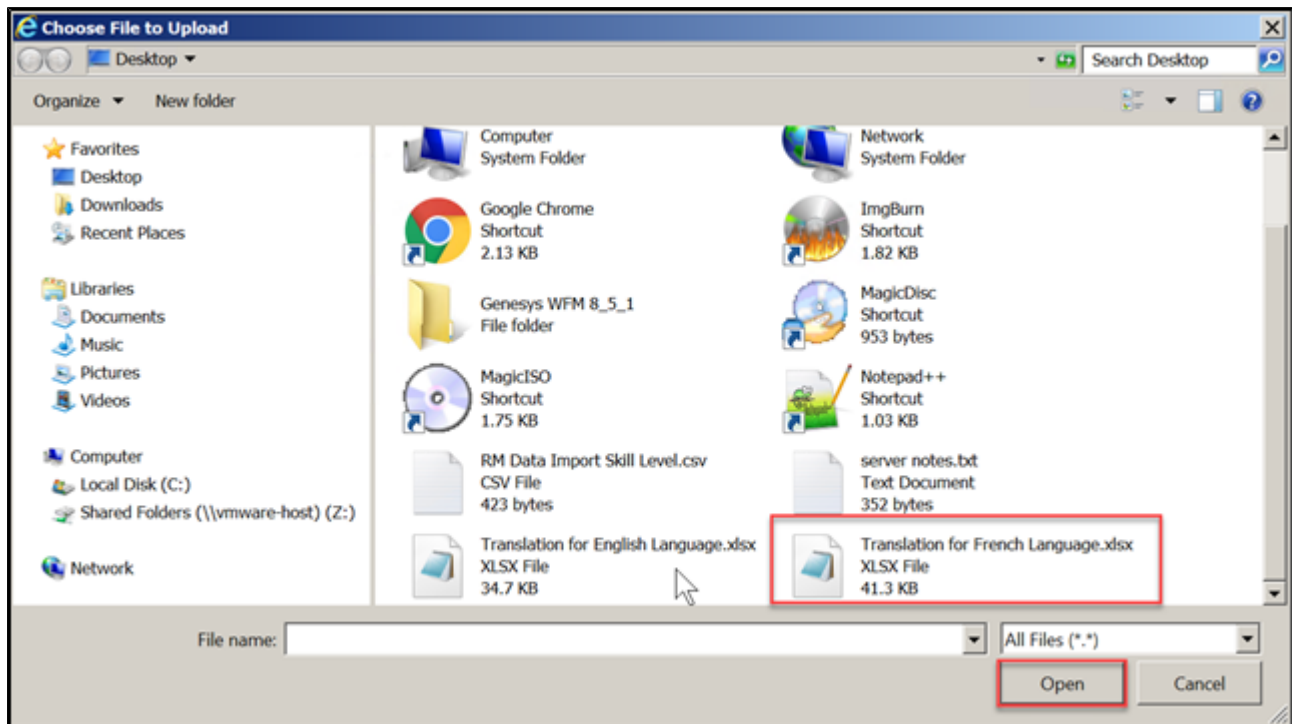

- In the **"Import"** section, select the language from the **"Choose Language to Import"** drop-down

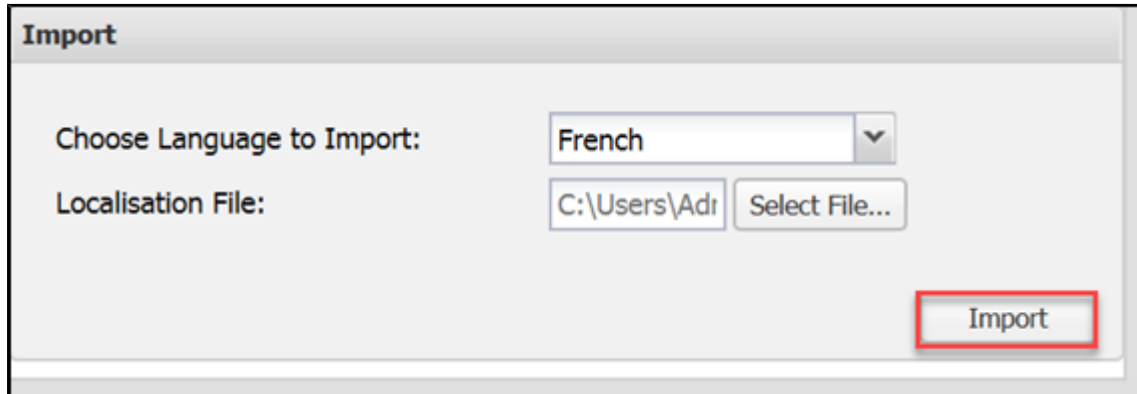

- "Select File"

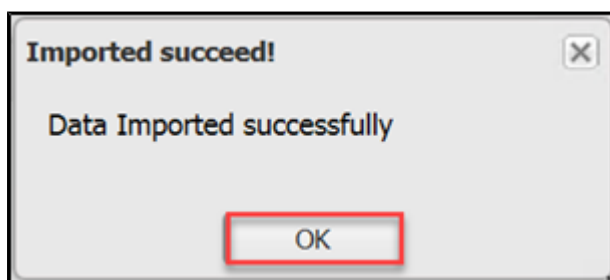

- Locate and select the file to import
- Select "Open"

- Select "Import"

- Select "OK" at the confirmation once the file has been imported

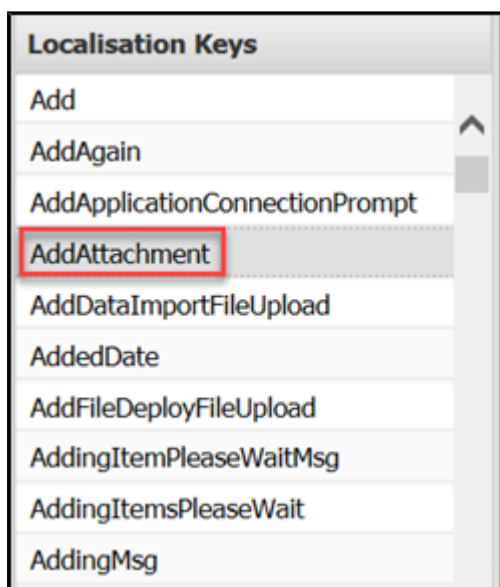

Once the language file has been imported, the language is available to be selected in the “**Options**” tab of Spotlight.

Edit

Individual translated values can be adjusted within the “Localisation Admin” screen once a language file has been imported.

To do so:

- Select the “**Localisation Key**” – the text to adjust

- Select the language from the “**Available Language**” drop-down in the “**Edit**” section

Export

In addition to amending individual values of the language file from within the Localisation Admin screen, it is also possible to export the full language file.

This allows an Admin user to make multiple adjustments, before re-importing the language file.

To do so:

- In the “**Export**” section, select a language from the “**Choose Language to Export**” drop-down
- Select “**Export**”

- Open or Save the file

Once the file has been adjusted, follow the procedure above to import the language file.
