

# THE METEORIC RISE OF CLOUD MIGRATION

**90%** of companies are on the cloud.

**94%** of workloads in 2021 will be processed by cloud data centers.

**66%** of enterprises already have a central cloud team or a cloud center of excellence.

By 2023, the value of the cloud computing market is expected to reach **\$623.3 bn**

We are witnessing a meteoric rise in the number of cloud migrations, with organizations leveraging almost 5 different cloud platforms, on average.
